GO_Biological_Process_2021
protein glycosylation (GO:0006486)
regulation of triglyceride metabolic process (GO:0090207)
peripheral nervous system neuron development (GO:0048935)
positive regulation of heart rate by epinephrine-norepinephrine (GO:0001996)
regulation of relaxation of cardiac muscle (GO:1901897)
response to vitamin (GO:0033273)
regulation of cyclin-dependent protein serine/threonine kinase activity (GO:0000079)
peripheral nervous system neuron differentiation (GO:0048934)
fatty acid omega-oxidation (GO:0010430)
negative regulation of cell activation (GO:0050866)
